About managed funds

Managed funds are designed to give investors access to a range of investments by pooling your money with that of other investors, giving you the opportunity to access markets that you may not be able to invest in on your own.

There are many types of managed funds available and they usually provide a diversified approach to investing providing the opportunity to achieve an appropriate balance of investments and asset classes to suit your investment objectives and risk profile.

In summary, some of the benefits that can be obtained by investing in managed funds include:

Increased buying power: managed funds are able to access a range of domestic and international shares that may not be available to many individual investors.

Professional investment expertise: managed funds are run by a team of investment experts who research and monitor the markets on a daily basis.

Managing risk: investing in a range of managed funds can assist you in establishing a portfolio appropriate to your investment needs and to suit your risk profile.

Access to single class fund: these funds invest within one asset class, such as shares, but they are still diversified within the asset class.

When you invest in a managed fund, you are issued with a number of 'units' based on the entry unit price at the time you invest (see page 12 for further details on how unit prices are calculated). Your units represent the value of your investment, which will change over time as the market value of the assets fluctuate.

About this Fund

What is the investment objective of the Fund?

The primary aim of the Fund is to maximise capital growth through exposure to a globally diversified portfolio of shares of quality small and mid capitalisation companies listed on international stock exchanges.

What is the investment strategy of the Fund?

The investment process is driven by extensive, bottom-up industry and stock research. The research process centres firstly on industry sub-sectors, in order to assess the attractiveness of these sectors on a world-wide basis, and to provide context for company analysis. The second stage of the research process focuses on fundamental company research to identify those stocks that offer above-average investment potential.

The portfolio construction process starts with the establishment of a strategic framework for investing. This framework is comprised of the team's points of view on industry, stock, style and market risks. Portfolio strategy is dynamic and reflects the team's ongoing industry and company research, and its financial market observations. Stocks are selected on the basis of the team's bottom-up fundamental analysis.

From time to time the Fund may take active currency positions relative to the benchmark.

Environmental, social and ethical factors and labour standards considerations

We do not have a predetermined view about labour standards or environmental, social and ethical considerations in relation to our investment making process nor do we take these factors specifically into account when making investment decisions. However, where any of these factors financially impact the performance or viability of the investments, we may review our decision to purchase, realise or retain a specific investment. Reviews are on a case by case basis as and when such factors arise. Our primary focus in the selection and retention of investments is on financial outcomes.

What does the Fund invest in?

The Global Small Cap Fund's investment universe is all emerging stocks that fall within the market capitalisation range of the benchmark S&P Global MidSmall Cap Index. The average market capitalisation of the portfolio is typically between US\$300 million to US\$10 billion. While investment is generally in the bottom 30% of market by capitalisation, there is flexibility in the investment approach to invest in small and mid size companies.

To achieve its objectives, the Global Small Cap Fund is given specific asset allocation ranges, which are the minimum and maximum level of investment allowed in a particular asset class. These ranges are set out in the table below under the heading "Asset allocation ranges (%)". The actual asset allocation for the Fund can move within those ranges, according to our view of the outlook for investment markets. The actual allocation to an asset class may be greater than, less than or at the benchmark weighting for the Fund.

Asset allocation ranges (%)			
Asset Sector	Minimum	Benchmark	Maximum
Listed international shares	85	100	100
Cash and liquid assets	0	0	15

What are the significant benefits of investing in the Fund?

The benefits of investing in the Fund include:

Easy to add to your investment – generally you can add to your investment at any time – no minimums apply (see page 11 for further details).

Access to a range of investments – The pooling of your investment within the Fund allows access to investment opportunities and markets which individual investors would usually not have access to (see asset allocation ranges table above).

Easy access to your investment information – in addition to the regular reporting and statements you receive from us, you can access your personal investment information 24 hours a day, 7 days a week via our website at www.blackrock.com/au or by calling our Client Services Centre on 1300 366 100 (see page 3 for further details).

Receipt of income – you will generally receive income from your investment in the form of distributions (see page 13 for further details).

Reinvestment of distributions – you have the ability to "top-up" your investment through the reinvestment of your distributions as additional units (see page 13 for further details).

Access to your investment – you can withdraw your investment at any time (subject to the terms and conditions highlighted on page 13).

What are the significant risks?

Before you make an investment decision it is important to identify your investment objectives and the level of risk that you are prepared to accept. This may be influenced by:

- The timeframe over which you are expecting a return on your investment and your need for regular income versus long-term capital growth.
- Your level of comfort with volatility in returns.
- The general and specific risks associated with investing in particular funds.

General risks

All investments have an inherent level of risk. Generally there is a trade off between higher expected returns for higher expected risk – represented by the variability of fund returns. The value of your investment will fluctuate with the value of the underlying investments in a fund. Investment risk may also result in loss of income or capital invested and possible delays in repayment. You could receive back less than you initially invested and there is no guarantee that you will receive any income.

Historically, actively managed funds that have invested primarily in shares, like this Fund, have had a higher risk profile and are more volatile when compared to funds invested primarily in other asset classes such as property, cash and fixed income.

What about the specific risks of this Fund?

The significant risks for this Fund, and the ways we aim to manage them, are discussed below. The performance of the Fund will reflect the volatility in the Fund's underlying investments. If these risks eventuate, your distributions may be lower than expected or there may be none, and the value of your investment could fall.

The significant risks for this Fund may include:

Individual investment risk: individual investments we buy, like shares, can and do fall in value for many reasons such as changes in a company's internal operations or management, or in its business environment.

Share prices experience volatile price movements and dividend payments from shares may also vary over time.

We aim to reduce these risks with careful analysis of research from many sources and by talking to those people who run companies and are responsible for changes which may impact on our investments.

Market risk: economic, technological, political or legislative conditions, and even market sentiment, can (and do) change, and this can mean that changes in the value of investment markets can affect the value of the investments in the Fund.

We use research and analysis to form a view on these matters as best we can and then rebalance the investment mix of the Fund to reduce the impact.

International risk: investing internationally carries additional risks. These risks include:

- Differences between countries relating to accounting, auditing, financial reporting, government regulation, securities exchanges and transactional procedures.
- Foreign markets may have different levels of liquidity, pricing availability, settlement and clearance procedures.
- Actions of foreign governments, exchange controls, defaults on Government securities, political and social instability.

These risk considerations apply, to some extent, to all international investments but are likely to be of greater significance in certain small or emerging markets.

"Small Cap" risks: securities of smaller capitalisation companies may, from time to time, and especially in falling markets become less liquid and experience short term price volatility. They may also be less financially secure than larger, more established companies and depend on a small number of key personnel which increases the risk of the company's failure if a product fails or if management changes or if there are other adverse developments.

Currency risk: International securities are purchased and traded in the currency of their home country. As a consequence, changes in foreign currency exchange rates will affect the value of securities denominated or quoted in foreign currencies and, therefore, investment returns may be affected by fluctuations in currency against the Australian dollar. These movements may either add or subtract from performance. The currency exposures of the Fund are generally unhedged, however, active currency management may be undertaken with the objective of adding value to the Fund by modifying the currency exposure of the Fund to take advantage of movements in currency markets. The impact of currency hedging on the Fund's return is uncertain, cannot be guaranteed and can result in capital losses.

Fund risk: There are risks particular to the Fund, including that it could terminate, the fees and expenses could change, we could be replaced as manager and our investment professionals could change. There is also a risk that investing in the Fund may give different results than investing individually because of income or capital gains accrued in the Fund and the consequences of investments and withdrawals by other investors.

We aim to keep Fund risk to a minimum by monitoring the Fund and acting in your best interests.

Derivative risk

A range of financial derivatives, for example, futures, options and forward foreign exchange contracts may also be used to implement investment decisions and to manage risk in the Fund. Derivatives may be used to gain, reduce or modify exposure to a particular asset class or currency. An investment in derivatives can cause the Fund to make gains or incur losses.

It is our policy not to use derivatives to create exposures that are inconsistent with a fund's investment guidelines.

Derivative contracts are subject to particular risks as listed below:

Market risk – significant losses from derivative contracts may occur in the event of extreme market moves. The Fund's risk management disciplines are designed to control this risk.

Counterparty (credit) risk – derivative transactions may be subject to the risk that a counterparty to the transactions will wholly/partially fail to perform their contractual obligations under the arrangement. To minimise this risk, BlackRock has various procedures and processes in place.

Operations risk – the risk that deficiencies in the effectiveness and accuracy of information systems or internal controls will result in a material loss. BlackRock has various procedures and processes in place designed to minimise this risk.

Emerging market risk

The Fund may invest in securities in Emerging markets. Emerging markets include those countries defined as emerging or developing by the World Bank, the International Finance Corporation of the United Nations. Emerging markets are riskier because they develop unevenly or may never fully develop. Emerging markets are more likely to experience political instability, abrupt changes in government policies, hyperinflation and currency devaluations than developed markets which may adversely impact returns. Additionally, the securities markets in many of these countries have lower trading volume and less liquidity than developed markets and may be more likely to suffer sharp and frequent price changes.

Regulatory risk

This is the risk that a government or regulator may affect the value of securities that the Fund invests in, by introducing regulatory or tax changes.

What fees apply?

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund manager or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.fido.asic.gov.au) has a managed investment fee calculator to help you check out different fee options.

This document shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from returns on your investment or from the fund assets as a whole.

Taxes are set out in another part of this document.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

All fees and costs are in Australian dollars and, unless otherwise indicated, reflect the impact of Goods and Services Tax (GST) less any reduced input tax credits.

The deduction of the management fee is reflected in the daily unit price of the Fund. The fee is paid to us monthly in arrears. The amount of this fee can be negotiated. ¹ Expenses excluding abnormal expenses ² are included in the management fee.	Assuming that \$50,000 is invested in the Fund $\$50,000 \times 1.25\% = \625

Additional explanation of fees and costs

Management costs

The management costs include the:

- Management fee
- Expense recovery costs (other than abnormal expenses)

Management fee

The current management fee for the Fund (together with a dollar example assuming an investment of \$50,000) follows:

Management fee		
Name of Fund	Management fee	Dollar example
Global Small Cap Fund	1.25%	\$625

Expense recovery costs

We are entitled to be reimbursed for certain expenses in managing and administering the Fund. These expenses relate to the administration and operation of the Fund. Unless we advise otherwise, all Fund expenses, other than abnormal expenses (see below) will be paid for by the Manager from the management fees and no additional expenses will be recovered.

Where an investment is made through a fund managed by us or another company in the group, the management fees of the underlying fund will be rebated. However, in certain circumstances additional expenses may be incurred within the underlying funds.

Abnormal expenses

Abnormal expenses are expenses not generally incurred during the day to day operations of the Fund and are not necessarily incurred in any given year. They are due to abnormal events such as the cost of running a unitholder meeting or legal costs incurred by changes in the Fund's constitution or defending legal proceedings. We will continue to seek reimbursement from the Fund in relation to these expenses should they arise.

Transaction costs

The Fund may incur transaction costs (such as brokerage, settlement costs (including custody costs), clearing costs and stamp duty) when investors invest in or withdraw from a Fund (these transaction costs are included in the buy-sell spread, see this page) and when transacting to meet investment objectives.

The amount of transaction costs incurred when transacting to meet investment objectives is dependent on a number of different variables, including the level of trading undertaken by a Fund. As such we are unable to provide a meaningful estimate or example of these costs. Transaction costs are an additional cost to the investor but are generally reflected in the unit price and not charged separately to the investor.

Buy-sell spread

The buy-sell spread reflects the transaction costs associated with buying and selling the assets of a Fund when investors invest or withdraw from the Fund. The buy spread is the difference between the entry price and the Net Asset Value (NAV) price. The sell spread is the difference between the exit price and the NAV price. The total buy-sell spread is the difference between the entry price and exit price. It is an additional cost to the investor but is reflected in the unit prices. It is not charged separately to the investor and will not appear on any statement sent to an investor. The buy-sell spread is paid into the Fund with a view to ensuring all investors are treated equally and is not paid to BlackRock. The buy-sell spread may be varied at any time. Prior notice will not ordinarily be provided.

At the date of this PDS, the estimated transaction cost for the Fund is 0.50% on entry and exit.

Worked example

In relation to the \$50,000 contribution, the estimated transaction cost incurred would be \$250.

Can the fees and charges change?

All fees and charges can change. They may vary over time as a result of changes to the product, changing economic conditions and changes in regulations. We will give you 30 days written notice of any proposed increase. We cannot charge more than the Fund's Constitution allows (to change the Constitution in this regard, we would need to obtain unitholder approval).

The current fees applicable to your investment are set out in the table titled "Fees and other costs" on page 8 of the PDS. Although we have the power to change our fee structure, we have no present intention to do so.

Under the Constitution of the Fund, we are presently entitled to charge the following maximums:

Contribution fee – up to 5.0% of the application monies.

Withdrawal fee – up to 5.0% of the redemption proceeds.

Management fee – up to 2.0% per annum of the Net Asset Value calculated in accordance with the Constitution.

Payments to advisers and other service providers

No commission is currently payable by us to advisers in relation to this Fund.

We may at our discretion, enter into a variety of arrangements with service providers such as master fund and IDPS operators which may involve us making payments to, and providing services to, these operators in return for the promotion of the Fund. Such payments may be one off payments for offering the Fund on their investment menu (referred to as a Product Access Payment) or an ongoing Fund Manager Payment based on a scaled percentage of funds under management. Currently no Product Access Payments are made and a Fund Manager Payment of up to 0.46% is paid based on assets under management. These payments are paid out of our fees and are not an additional cost to the investor. The amounts of these payments may change during the life of the PDS.

Alternative forms of remuneration

We may provide alternative forms of remuneration which include professional development, sponsorship and entertainment or licensed financial advisers, dealer groups and master trust or IDPS operators. Where such benefits are provided, they are payable by us and are not an additional cost to you. We maintain a public register of alternative forms of remuneration in accordance with IFSA/FPA Industry Code of Practice on Alternative Forms of Remuneration. Please contact our Client Services Centre if you wish to inspect this register.

Differential Fees

In accordance with the Corporations Act, we may individually negotiate fees with investors classed as "wholesale" or "professional" investors.

We may negotiate special arrangements concerning fees (including fee reductions or waivers) with other investors in certain circumstances determined by us, as permitted by law. Please contact us for further details.

Example of annual fees and costs

The table below gives an example of how the fees and costs in the Fund can affect your investment over a one year period. You should use this table to compare this product with other products.

Example of annual fees and costs for the Fund		
Example		Balance of \$50,000 with contribution of \$5,000 during year
Contribution fees	Nil	Not applicable
PLUS		
Management fees	1.25%	And, for every \$50,000 you have in the Fund you will be charged \$625
EQUALS cost of Fund		
		If you put in \$5,000 during a year and your balance was \$50,000, then for that year you will be charged fees of \$625*
		What it costs you will depend on the fees you negotiate with us or your financial adviser

*Additional fees and costs such as transaction costs may apply.
Please note this is an example. In practice, the actual investment balance of an investor will vary and the actual fees we charge are based on the value of the Fund, which also fluctuates. The amounts assume a constant investment of \$50,000 throughout the year. Management fees will also be charged in relation to additional contributions.

The fund size inclusive of all classes of units as at 30 June 2009 was \$204.1 m.

Personal Identification Number (PIN)

Shortly after you make your initial investment you will be provided with a PIN. For security reasons, this should be kept in a safe place and not disclosed to anyone. Please do not keep your PIN with your Investor Number. Your PIN in conjunction with your Investor Number will enable you to:

- make a telephone withdrawal
- switch between Funds*

* Switching between funds can occur either between funds offered under the same PDS or between funds of the same unit class where the investor currently has a holding in both funds.

If you do not want a PIN, please notify us to request its cancellation.

A PIN will not be issued if the investment is through a margin lender unless otherwise directed to by the margin lender. Your PIN must be used in conjunction with your Investor Number. If your PIN is used by someone without your authority, we will not generally be liable for any loss incurred by you. Do not store your PIN with your Fund records. When using your PIN you release, discharge and agree to indemnify us from and against all actions, proceedings, claims and liabilities arising out of the use of your PIN, except to the extent that such liability is attributable to our own neglect.

We may continue to accept telephone withdrawal requests until we receive the written notice from you to cancel or vary your PIN.

Investing via an Investor Directed Portfolio Service (IDPS)

Investors and potential investors accessing the Fund indirectly through an investor directed portfolio service (IDPS) or master trust may use this PDS for that purpose. Such indirect investors do not acquire the rights of a unitholder under a Fund. Rather, the operator of that service acquires the rights of a unitholder under a Fund. Therefore, indirect investors do not receive income or reports directly from us and do not have the right to attend meetings of unitholders. Indirect investors should not complete the Application form attached to, or accompanying, this PDS and should seek their own tax advice. The rights of indirect investors are set out in the disclosure document of the IDPS or master trust.

How are unit prices calculated?

When you invest in the Fund you are allocated a number of Class D units in the Fund. Although the Fund's constitution allows the Manager to issue units in more than one class, only Class D units are issued under this PDS. The fees may vary between classes of units, however we are under a duty to ensure any difference in fees is fair between the classes. Each of these units represents an equal part of the Net Asset Value ("NAV") of the Fund attributable to Class D. As a result, each unit has a dollar value or 'unit price'.

Both the entry and exit prices are based on the NAV of the Fund taking into account transaction costs and adjusted to take into account liabilities (ie fees and expenses) of the Fund attributable to Class D; a portion of the shared liabilities (see below) attributable to Class D; and the amount of income and gains of the Fund which are attributable to Class D taking into account the impact of differential liabilities (ie fees and expenses).

In making adjustments for classes, where we consider that liabilities are referable to one class only they are attributed to that class; while generally liabilities that are shared between classes will be attributable to a class by reference to the value of the class as a proportion of the value of the Fund.

There may be some circumstances where an apportionment of shared liabilities between the classes on the basis of value of the class as a proportion of the value of the Fund is not fair, in which case we must apportion the liabilities in a manner that it determines is fair between the classes.

For example, if a meeting of members (of all classes) is called and there are different numbers of members in each class of the Fund, an apportionment of the postage expense between classes by reference to value of assets held in each class may not be fair, in which case we will determine a method that is fair, such as for example, allocating the expense on the basis of the number of members in each class.

The NAV of the Fund represents all the assets of the Fund less liabilities of the Fund. Both prices are generally calculated on each Melbourne or Sydney business day.

Assets of the Fund are generally valued at their market value in accordance with the Fund's Constitution. Where there is no readily available market value for an asset, the Fund's constitution allows us to value an asset on another basis provided it is independently verifiable. In these circumstances, we have established procedures dealing with the process by which prices are determined. The process depends on the nature of the asset and will involve having regard to relevant factors, which may include a last price traded, obtaining independent valuations and referring the matter to an internal committee for assessing these factors. Liabilities are valued by reference to applicable accounting principles.

The unit price we apply for an application or withdrawal will generally be the price calculated on the business day following the receipt of the request.

The deadline for receipt of an application or withdrawal request is 2.00pm EST on any Melbourne or Sydney business day. Requests received after this time will be treated as received on the following Melbourne or Sydney business day.

We have the discretion however, to price more or less frequently when unusual circumstances prevail (for example, when there has been unusual volatility in the market) in order to protect the interests of all investors. BlackRock has a formal "Unit Pricing Discretions Policy". For a copy of this contact our Client Services Centre on 1300 366 100.

How do you receive income from your investment?

Any income you receive from your investments will be in the form of distributions. Your distribution may include income such as interest, dividends and realised capital gains.

If you hold Units in the Fund at the close of business on the last day of a distribution period, you are entitled to participate in the distributable income of the Fund.

Distributions (if any) may vary over time depending on the Fund's realised losses, gains, income and expenses in a particular period. If investments are sold during a period, any taxable gains from the sale may be paid in that period or a subsequent period within the financial year.

Distributions are generally determined at the end of June and December but if you have invested through an IDPS or master trust the operator of such services may pay distributions at times which are different to this. Following the determination of a distribution, the unit price will fall to reflect the reduced value of the Fund following the payment of the distribution to investors – in other words it is priced to exclude the distribution entitlement.

Distributions are normally paid within 21 business days of the end of the distribution period.

Distribution of Australian sourced income to non-resident investors will be subject to withholding tax. See page 15 for further details on the taxation issues which may have an impact on you.

Distribution payment options

If you have invested directly in the Fund, you have two payment options regarding your distribution payments:

- reinvestment
- direct deposit to your nominated bank account

If you do not indicate a distribution payment option on your application form, all your income distributions will automatically be reinvested as additional Class D Units, based on the last application price for Class D Units before the end of the distribution period, adjusted for the distribution payable in relation to that period.

If you have selected the direct deposit option and the distribution payment by direct deposit is unsuccessful, your income distributions will be reinvested as additional Class D Units in the Fund.

Withdrawing your investment

If you have invested through an IDPS or master trust, you need to complete the documents which the operator of these services requires of you to withdraw from the Fund. You don't need to complete any of our forms.

If you have invested directly into the Fund, withdrawals can be made in writing (including by facsimile) or by telephone using your PIN (see page 18) in conjunction with your Investor Number. We will then send a cheque or make a deposit into your bank account.

You will normally be able to withdraw money from the Fund on any Melbourne or Sydney business day.

Withdrawal requests must be received by 2.00pm. Requests received after this time will be treated as received the following Melbourne or Sydney business day.

While there is no minimum redemption amount, we generally require a minimum balance in your account of \$5,000.

Withdrawals are normally processed and posted within four business days of our having received the request (although we are allowed longer periods under the Fund's Constitution). If you have invested through an IDPS or master trust please note that the operator of such services will process your withdrawal.

In unusual circumstances outside our control we may delay the processing of requests for the period that the unusual circumstances prevail.

If a withdrawal request relates to more than 5% of units on issue, we may treat the request as being five separate requests received over five successive business days.

Although it is unlikely, if at any time the Fund is not liquid (that is less than 80% of the Fund's assets are liquid assets) you do not have the right to withdraw from the Fund and can only withdraw when we make a withdrawal offer to investors in accordance with the Corporations Act. We are not obliged to make such offers.

Additional information

Taxation

Investing, and dealing with investments, often has tax and social security implications which can be complex, and which are invariably particular to your circumstances. It is important that you seek professional advice before you make an investment decision.

Taxation of the Fund

Australia has been in the process of taxation reform for some years. While the final form of the taxation reforms is still not certain, it is expected that the Fund will continue to be subject to "flow through" taxation, and generally not pay any tax so long as it fully distributes income to unitholders. We intend to monitor developments and where "flow through" taxation is available, take all reasonable steps to ensure that the Fund satisfies the relevant requirements to be taxed in this manner.

As the responsible entity of the Fund, however, we may be liable to pay tax for certain taxable income to which non-resident unitholders are entitled.

The distributable income of the Fund may include non-assessable amounts to unitholders. Receipt of certain non-assessable amounts may have capital gains tax consequences.

Taxation of a resident unit holder

You will be assessed on your share of the taxable income of a Fund to which you are entitled, regardless of whether you receive the distribution in cash or it is reinvested. You will be assessed in the year to which your entitlement relates. For example, an income distribution for the period ending 30 June 2009 is included in the assessable income for 2008/2009, even if the cash is received in July 2009.

You may have to pay tax on all or part of your capital gain (the increase in the value of your investment) when your units are redeemed.

Taxable income of the Fund

The taxable income to which you are entitled may include various amounts as described below. The taxable income of the Fund which invests into other wholesale funds may include realised gains upon the redemption of units in those funds and an entitlement to the income of those other wholesale funds.

Depending on the types of investments made, the Fund can derive income in the form of dividends, interest, rent, gains on the disposal of investments and other types of income.

Generally speaking, such income derived by the Fund is taxable, but tax credits (eg. franking credits and foreign tax credits) may be available to investors to offset part or all of any resulting tax liability.

Disposal of investments by a Fund may result in taxable income of the Fund.

Capital gains will be calculated based on the nominal gain on disposal of investments. Where the asset disposed of was held for 12 months or more, eligible investors are able to claim concessional treatment. You may be entitled to a credit for foreign tax paid on certain income or capital gains received from overseas investments.

In either case, the Fund will distribute all gains (less available losses) to unitholders during the year of income.

In broad terms under the Capital Gains Tax provisions of the Income Tax Assessment Act, a gain arising on the disposal of Fund investments will, where the sum of capital gains exceeds any capital losses, be included in the Fund's taxable income.

The Fund will generally calculate taxable capital gains based on half the nominal gain made on the disposal of an asset, if that asset was held for 12 months or more. Capital gains distributed may include some gains where eligible investors are able to claim concessional treatment. Company investors are not entitled to the discount. BlackRock has assessed and proposes to continue to generally assess gains on the disposal of assets for the Fund and any other wholesale fund into which the Fund may invest under the capital gains tax regime.

However, certain gains of the Fund are not subject to the Capital Gains Tax rules, and should be assessed as ordinary income, particularly those gains made on the disposal of government bonds and fixed income securities.

You may be entitled to benefit from franking credits arising from any franked dividends received by the Fund. Franking credits distributed may be refundable to certain investors (including individuals and complying superannuation funds) if those franking credits exceed the investor's total tax liability. That is, a cash refund of excess franking credits will be available in certain circumstances.

You may be entitled to a credit for foreign tax paid on certain income or capital gains received from overseas investments.

Taxation of acquisition and disposal of units

Under the capital gains tax provisions, when you redeem your units, whether by withdrawing, switching or transferring your units, you may be liable to tax on any gain. Where units have been held for twelve months or more, the gain may be eligible for concessional treatment under the Capital Gains Tax rules.

Should a capital loss arise on redemption of a unit, the loss will not be an allowable deduction for you, but may be able to be offset against capital gains arising in that year or in subsequent years. Certain investors (for example, those carrying on a business of trading in units or securities) may be liable to tax on any gains made on the redemption of units as ordinary income (in these circumstances, any losses would be allowable deductions).

Foreign investments

The Foreign Investment Fund (FIF) regime imposes a tax on Australian investors who invest in certain foreign companies and trusts. Under FIF an increase in the value of an investment in a foreign company or trust may be assessable income even though the increase in value is 'unrealised'.

The Fund invests in foreign companies or in wholesale funds which in turn, invest in foreign companies. We intend to ensure that investments of the Fund holding foreign investments satisfy the exemptions to the FIF regime. If the exemptions are satisfied no amount should be assessed under the FIF regime.

The Federal Government has made several proposals in relation to the operation of the FIF rules for managed funds, which we will monitor going forward.

Taxation of non-resident unitholders

If a non-resident is entitled to taxable income of the Fund the Manager may be subject to Australian tax at the rates applicable to non-residents. If you are a non-resident, you may be entitled to a credit for Australian income tax paid by the Manager in respect of your tax liability. Distributions to you of amounts attributed to Australian franked dividends will not be subject to withholding tax. Any distribution of unfranked dividends, interest or amounts in the nature of interest will, however, be subject to withholding tax. This is irrespective of whether distributions are paid in cash or reinvested as additional units.

You will receive the distributions net of anticipated Australian tax. Under the Capital Gains Tax provisions, you will not generally be subject to Australian tax on capital gains realised on the disposal of units in a Fund. However, if you and your associates held, or had an option or right to hold, 10% or more of the issued units in the Fund at any time within five years before the time of disposal of the units, you may be subject to Australian tax.

Certain non-resident unit holders may, irrespective of the level of units in the Fund, be liable to tax in respect of any profit of the disposal of a unit as ordinary income.

Unit prices

The entry or exit price of a Fund is not adjusted to reflect any potential tax liability to unit holders on unrealised gains for investments in the Fund. Funds which have unrecouped losses do not reflect the potential tax benefits of the losses in the entry price or exit price.

The entry price and exit prices may reflect the income derived to date by the Fund in the distribution period.

Tax File Number (TFN), Exemption and Australian Business Number (ABN)

Australian unit holders may quote their Tax File Number (TFN) to us or claim an exemption at any time. However, you are not obliged to quote your TFN or claim an exemption. Strict guidelines govern the use and storage of TFNs. If you do not quote your TFN or claim an exemption, then your income distributions will have tax withheld at your highest marginal rate plus Medicare levy. Some investors that make the investments in the Fund in the course of carrying on an enterprise of investing may also be entitled to quote their Australian Business Number as an alternative to their TFN.

Goods and Services Tax (GST)

Where under the GST legislation the Fund is entitled to credits for GST paid to another person (generally 75% of the GST on certain acquisitions), the cost of paying GST from the Fund will be reduced proportionately. Where entitled to do so BlackRock will recover GST on its fees from the assets of the Fund.

Keeping you informed

When you invest through an IDPS or master trust, the operator of that service will send you information relating to your investment.

When you invest directly in the Fund you will receive:

- **Confirmation Statement** specifying details relating to your investment and your Investor Number, together with any investor information brochure explaining the administration of your investment. Your PIN is sent to you separately.
- **Regular reporting** including a quarterly update on all our funds (unless otherwise advised that it is not to be received).
- **Distribution Statement** after each distribution period. At the end of each financial year, you will receive a Consolidated Distribution Statement, if the Fund has made a distribution in the financial year, that will help to simplify your record keeping by providing the total of your income payments over the past twelve months.
- **Tax Statement** on an annual basis.
- **Periodic Statement** on a half yearly basis.
- **Capital Gains Tax Statement** on an annual basis if you make a withdrawal during the year.

You will also receive a Confirmation Statement for most transactions conducted on your account.

Annual Financial Report

A copy of the audited annual financial report for the Fund is available by the end of September from us. The report will include a Balance sheet, Income Statement, Cash Flow Statement and Statement in Change of Equity, as well as notes to the Financial Statements.

The annual report will be made available on our website at www.blackrock.com/au

You may elect to receive a hard copy of the annual report by ticking the box in Section 7 'Annual Financial Report Election' of the Application form.

What are our reporting requirements?

This Fund is not currently a disclosing entity as defined under the Corporations Act. However, if it were to become a disclosing entity during the currency of this PDS, the Fund would be subject to additional regular reporting and disclosure obligations. Copies of documents lodged with ASIC to comply with these requirements may be obtained from, or inspected at, an ASIC office. You have a right to request us to provide to you free of charge, the half yearly financial report and any continuous disclosure notices lodged with ASIC (in addition to the annual audited financial accounts referred to above).

Do you have any "cooling off" rights?

If you have invested directly into the Fund and are not otherwise a "wholesale" or "sophisticated" investor (as defined in the Corporations Act) you have a 14 day cooling off period in which to decide if the investment is right for you.

The 14 day period commences from the earlier of the time your investment is confirmed and the fifth day after the units are issued.

If, during the cooling off period, you decide that the investment does not meet your needs, then simply advise us in writing. You must specifically state you are exercising your cooling off right. Written requests received after 2.00pm EST will be treated as received on the following Melbourne or Sydney business day.

Subject to the paragraph above, the amount of your refund will be calculated on the day we receive your written request to withdraw your investment, reduced or increased for market movements in the Fund as well as any applicable transaction costs and less any non-refundable tax or duty paid or payable. Accordingly, depending upon the circumstances, the amount returned to you may be greater or less than the amount initially invested.

If you have invested through a master trust or Investor Directed Portfolio Service (IDPS), your rights to cool-off will be dealt with in the disclosure document for that master trust or IDPS.

Our legal relationship with you

We are the responsible entity for the Fund and as such we are licensed by ASIC which is responsible for regulating the operation of managed investment schemes like the Fund.

Constitution

Our responsibilities and obligations as responsible entity of the Fund are governed by a Constitution for the Fund as well as the Corporations Act and general trust law.

The Constitution contains a number of provisions relating to the rights, terms, conditions and obligations imposed on both you and us. A copy of the Fund's Constitution is available free of charge from us by calling our Client Services Centre on 1300 366 100.

Some of the main provisions which relate to your rights under the Constitution include:

- your right to share in the Fund income, and how we calculate it;
- your right to withdraw from the Fund and what you are entitled to receive when you withdraw or if the Fund is wound up;
- the nature of the units and classes of units;
- your rights to attend and vote at meetings – these mainly reflect the requirements of the Corporations Act which also deals with unitholders rights to requisition or call a meeting; and resolutions passed by a requisite majority at a meeting of unitholders are binding on all unitholders.

The Constitution provides that the liability of each unitholder is limited to its investment in the Fund. A unitholder is not required to indemnify us or our creditors in respect of the Fund. However, no complete assurance can be given in this regard as the ultimate liability of a unitholder has not been finally determined by the courts.

There are also provisions governing our powers and duties, some of which are discussed elsewhere in this PDS.

Others include:

- when we can terminate the Fund or class of units or reclassify units and what happens if we do. We can only terminate the Fund in accordance with the Corporations Act and only if we provide you with the required notice, and if we do, you share pro rata in the net proceeds from us selling the investments;
- when we can amend the Constitution. Generally we can only amend a Constitution where we reasonably believe that the changes will not adversely affect your rights as an investor. Otherwise the Constitution can only be amended if approved by special resolution at a meeting of investors;
- our right to refuse to accept applications for units or record any transfer of units without giving any reason;
- our right to determine minimum application, withdrawal and holding amounts and powers in support of these minimums;
- our right to deduct amounts you owe us from withdrawal proceeds; and
- our broad powers to invest, borrow and generally manage the Fund. We do not currently intend to borrow funds to acquire assets for the Fund, although this is permitted under the Fund's Constitution. We may only borrow if we consider it to be in the best interests of unit holders.

The Constitution contains a provisions that, except as provided under the Corporations Act, it alone, and no other laws (except, of course, those laws we cannot exclude), is the source of our relationship with you and other investors in the Fund.

The Constitution also deals with our liabilities in relation to the Fund and when they can be reimbursed to us out of the Fund's assets, for example, subject to the Corporations Act:

- we are not liable for acting in reliance and in good faith on professional advice;
- we are not liable to unitholders for any loss unless we fail to comply with our duties, fail to act in good faith or if we act negligently; and
- we can be reimbursed for all liabilities we incur in connection with the proper performance of our duties in respect of the Fund.

Compliance Plan

We have lodged a Compliance Plan for the Fund with ASIC. The Compliance Plan sets out the measures we will take to ensure we comply with the Corporations Act and the Constitution of the Fund. To oversee compliance with the Compliance Plan, we have established a Compliance Committee.

The Compliance Committee is required to report breaches of the Constitution and the Corporations Act to the directors of BlackRock Investment Management (Australia) Limited, and in some circumstances, to ASIC.

A copy of the Fund's Constitution and Compliance Plan are available free of charge from us by calling our Client Services Centre on 1300 366 100.

Auditor

We have an obligation under the Corporations Act to appoint an auditor of the Fund and Compliance Plan. The current auditor of the Fund is Deloitte Touche Tohmatsu ("Deloitte") of 550 Bourke Street, Melbourne, VIC, 3000, and a partner of the firm has been appointed as Compliance Plan auditor.

Custody

A custodian (sometimes more than one) is appointed us to hold the assets of the Fund. Our current policy is to appoint an independent professional custodian. You will be informed if this policy changes. In addition, the appointment of a custodian must be in accordance with the applicable legal and regulatory requirements which include a requirement that the custodian have at least \$5 million in net tangible assets. We remain liable to unitholders for acts and omissions of the custodian.

The role of a custodian is limited to holding assets of the Fund on behalf of BlackRock and acting in accordance with instructions from us (except in limited circumstances where the custodian has discretion to act without instructions).

A custodian has no supervisory obligation to ensure we comply with our obligations as responsible entity of the Fund.

The custodian may change from time to time but must satisfy any relevant regulatory requirements as mentioned above. If you require details of our custodian at any time, you should contact our Client Services Centre on 1300 366 100.

Faxed instructions

If you have invested directly in the Fund and wish to fax your instructions to us, please be aware that fraudulent or other unauthorised fax instructions can be made by persons with access to your account name and a copy of your authorised signatures.

Accordingly, you agree to release and indemnify us against all claims and demands arising as a result of our acting on what appeared to be your faxed instructions.

Margin lending

If you wish to apply using a margin lending arrangement, you must complete the Application Form that accompanies this PDS and sign Part 9 of the Application Form. You must also complete the Tax File Number Notification or Exemption Form ensuring that the Tax File Number you provide is your own and not that of the margin lender. Please forward the completed Application Form to your margin lender for their approval. In particular you will need to understand the terms of using the service in Part 8 of the Application Form. When your margin lender approves your margin lending application, the lender will then forward the completed Application Form and cheque (or any other method of payment acceptable) to us for processing.

Personal Identification Number

If you invest directly into the Fund, you will be provided with a Personal Identification Number (PIN) which will allow you to complete certain transactions on your account.

A PIN will not be issued if the investment is through a margin lender unless otherwise directed to by the margin lender.

Your PIN must be used in conjunction with your Investor Number. If your PIN is used by someone without your authority, we will not generally be liable for any loss incurred by you. Do not store your PIN with your Fund records. When using your PIN you release, discharge and agree to indemnify us from and against all actions, proceedings, claims and liabilities arising out of the use of your PIN, except to the extent that such liability is attributable to our own neglect. We may continue to accept telephone withdrawal requests until we receive the written notice from you to cancel or vary your PIN.

You agree to indemnify us against all losses, costs, damages and liability that we incur arising from you breaching these terms and conditions or providing us an invalid or non-binding direct debit request. Related party information

Any such transactions will be on arms length commercial terms.

Privacy

If you have invested through an IDPS or master trust, the Privacy Policy of the operator of that service will apply to your investment. If you have invested directly, the information requested on the attached application form is used by us for the primary purpose of establishing and administering your investment(s) with us. We are unable to process your application and provide you with the requested investment without this information.

A Privacy Policy detailing our handling of personal information is available upon request. You may request access to the information held by us about you and your investment(s), and we ask that you advise us of any changes to such information you may have provided.

We may disclose your information (or parts thereof) to external parties who act on our behalf in the operation of our business from time to time or as required by law. We may also disclose your information to external parties on your behalf, such as your financial adviser, unless you have instructed otherwise.

We, BlackRock, Inc. and its related bodies corporate may use your information on occasion, to advise you about other services or products offered by us or them, but you may elect to stop receiving such information at any time.

You may contact our Privacy Officer on (03) 9657 3000 if you wish to update or request access to your information or if you have any queries regarding our Privacy Policy.

Anti-Money Laundering and Counter-Terrorism Financing

We are required to comply with the Anti-Money Laundering and Counter-Terrorism Financing Act 2006 ('the AML legislation'). The AML legislation requires us to (amongst other requirements) verify the identity of investors making applications into Funds offered by us.

We cannot accept an application to invest in the Fund until satisfied that the identity of the investor has been verified in accordance with the AML legislation. The processing of applications may be delayed until the requested information is received in a satisfactory form and the identity of the investor is verified.

Investor identification requirements

■ Investors that apply without a financial adviser*

To comply with the requirements of the AML legislation, BlackRock requires an investor that directly applies to invest in the Fund (that is, **not** through a financial adviser) to complete the Investor Identification Form which is contained in PART C and submit it together with the application form.

The information provided will be used by BlackRock to verify the investor's identity.

* Financial advisers include an Australian Financial Services (AFS) Licensee or a representative of an AFS Licensee.

■ Investors that apply through/with a financial adviser

We intend to rely on financial advisers to verify the identity of their clients in accordance with the AML legislation. Section 6 of the Application Form (Financial Adviser) requires a financial adviser to confirm that they have verified the identity of the investor and agree that BlackRock may access any document that has been used by the financial adviser to verify their identity.

Unless requested, we do not require original documents or certified copies used by the financial adviser to verify the identity of the investor. Where document(s) verifying the investor's identity are provided to us by a financial adviser, BlackRock will still (as permitted under the AML legislation) be relying on the financial adviser to verify the identity of the investor.

■ Financial advisers not yet compliant

BlackRock recognise that some financial advisers will become compliant with the investor identification requirements of the AML legislation at different times prior to 12 March 2009 (the end of the 'assisted compliance' period). If the identity of an investor has not been verified, the financial adviser must advise BlackRock in Section 6 of the Application Form. The Investor Identification Form in Part C must be completed and provided with the completed Application Form. This will enable BlackRock to verify the identity of the investor and accept the investor's application to invest in the Fund.

BlackRock's right to request information

We may from time to time request identification/verification documentation or other information from an investor or financial adviser to verify the investor's identity or comply with AML legislation. Where documentation provided is not in English, an English translation must be provided by an accredited translator.

Appointed representatives

BlackRock is required to verify the identity of legal representatives and agents appointed to act on behalf of an investor. We cannot proceed to act on the instructions of a nominated legal representative until such time as we verify the identity of that representative.

Appointed legal representatives include, but are not limited to, executors of estates, attorneys (appointed under power of attorney) and nominated representatives.
